

# HOT OFF THE PRESS

Josie Warren Year 1

## Lemonade

We have been learning about Procedures this term. A recipe is a type of procedure. We followed a recipe to make home made Lemon Cordial. I think it tasted too sour.

Kye Humphreys Year 2

## All Sharks Should be Killed

I strongly disagree all sharks should be killed, even though everyone loves to swim in the ocean.

Firstly the ocean is their territory so they think we're invading them. They don't know we're just swimming for fun.

Secondly sharks mistake us for seals and other fish because they have very bad eyesight.

Lastly, we are taking their food away from them, because the fishermen are taking too many of the fish and they need to eat some food and so they come closer to the shore and we are damaging the ecosystem.

Therefore all sharks should not be killed because we wouldn't have a good ocean and we need a balanced ecosystem.

Lizzie Byron.
